

News from Hepburn Wind - April 2009

Dear friend of Hepburn Wind

If you are *not* one of the 740 people who have contributed over \$4m to this exciting project you may not have heard much from us recently. But a lot has been happening behind the scenes.

Since the closure of our public fund-raising at the end of 2008, the Board and our project partner Future Energy have been actively pursuing funding to complete the project, through a combination of bank loan, private investment and government support. We have also been putting in place some of the planning necessary to move swiftly on the construction phase once all the funding is finalised.

Many of these plans are close to fruition. The inaugural Annual General Meeting of our now expanded membership will be held next week at which we will report on these developments and we expect to be making some exciting announcements.

Earlier this year we undertook a review of the project status to take into account factors affecting the finances and produced a project update. Having completed this, we are now able to accept further investment from existing or new investors. A revised Share Offer document including the update and application form can be downloaded from our website at <http://www.hepburnwind.com.au/>

Existing members have already received notice of the AGM. If you are not a member* you are still welcome to attend and be among the first to hear of developments, although you will not be eligible to vote. The meeting is at 7 pm on Tuesday 28 April in Daylesford Town Hall.

Please RSVP if you wish to attend: simply reply to this email. This will help us plan catering.

Simon Holmes à Court
Chairman

* Interstate applicants should have received a letter from us dated 31 March. We are making good progress on clearing all the legal hurdles to accepting interstate applications, but unfortunately this will not be completed before the AGM. For more information please contact our executive officer jack.gilding@hepburnwind.com.au
