

Coming Soon!

Since our last email, support for Australia's first community wind farm has continued to grow, and we now have just over **\$9.5m** committed - more than 80% of the total project cost.

**If we can raise another \$1m in the next month, we will place an order for our two wind turbines. We have a window of opportunity - if we can order soon, our supplier has committed to delivering a fully operational wind farm on Leonards Hill by Easter next year.**

Ambitious...of course, but who would have thought that by the end of 2008 our community owned project would raise over \$4m from 740 investors during the worst economic crisis in decades.

Since then, investments have continued to roll in, a Melbourne charitable trust has committed an additional \$1.5m, and Bendigo Bank has

confirmed its willingness to provide debt finance and exchange rates have moved in our favour.

**We are so very close! Please help us show governments around the country that as a community we are prepared to take direct action to be a part of the solution. If you haven't already joined, please consider doing so today.**

For background information about the project, please visit our [web site](#), where you can [download the application](#) to invest. Please forward this email to any friends and family who you think may be interested in helping us get this important project over the line.

Simon Holmes à Court  
Chairman

Note: Unfortunately we are generally unable at this time to accept new investments from outside Victoria, however this may change. Also there are exemptions we can apply now for "sophisticated" and "high net worth" investors. Please ask for details if you think you might be eligible.
