

A big thankyou to all our supporters

Dear Supporter

At the beginning of June we shared with members our ambitious target to raise \$1million within the month. With your generous support we have deposited an additional \$725,000. Supplemented with a further \$200,000 in new commitments from large investors, this gives us a month's end total of \$925,000. Thank you, this is an outstanding effort!

We are still open to investment from existing and new members and we are delighted that funds continue to flow in. We will power past the \$1m target shortly and are well on the way to raising the total project cost.

After more than four years and thousands of hours work by volunteers and supporters, the Board and I are very excited that the Hepburn Wind project is on the brink of becoming a reality.

We have sought quotes for building and installing the two wind turbines on Leonards Hill and we hope to be in a position to sign a contract in the coming weeks.

Once we are up and running, which we anticipate will be in the early part of next year, your two turbines will generate renewable energy equivalent to the total domestic electricity consumption of Daylesford and Hepburn Springs.

This would have been impossible without the collective support of the Hepburn community and other investors who have embraced the ideals of a community acting together in its best interests to create a sustainable future.

Existing members who want to invest further should use the form on our [Members page](#). If you have not yet contributed, or if you have friends and family who are based in Victoria who want to join us, download the Share Offer from our website www.hepburnwind.com.au

Thank you. Your support has ensured this project will be realised within months, a true illustration of the power of community.

Simon Holmes à Court
Chairman
