

hepburnwind

Commit before 1 July!

We will be generating clean, safe power very soon. With many of the risks behind us, the share price will be increased by 10 cents on 1 July 2011 to \$1.10.

If you have been thinking of joining, you can beat the price rise by applying before 1 July.

Locals can join from just \$100.

Connecting up the wind farm

Our switchboard has arrived on site and the electrical team are currently wiring up and testing the control equipment, preparing for the commissioning and testing phase.

Buying our power

The question we hear most is “How can I get power from the wind farm?”

We are busily working with Red Energy to put the final touches on an offering that will be a great deal for customers and for our community. We look forward to sharing the details shortly.
