

hepburnwind

Join up by 1 July!

On 1 July our share price will rise to \$1.10. Members will join more than 1700 others in sharing in the profits of our wind farm. We welcome you to join this community project and support local resilience.

The wind she blows...

Our two turbines are now spinning on Leonards Hill much of the time. During the commissioning phase the turbines may stop and start many times a day.

Once the commissioning process is complete, we look forward to organising site tours so you can see them at close range and learn how they work. Meanwhile, let us know if you have any questions or concerns.

Community Fund

We know that *from little things, big things grow*. It is our priority to use part of the profits from the sale of our clean energy to help other local ideas become a reality. We will be opening our first round of funding shortly.

Did you know?

The Hepburn Community Wind Farm at Leonards Hill is the ninth wind farm to be built in Victoria, and the first in Australia to be owned and operated by a community co-operative. Community ownership of wind farms is very common in Europe and North America.

Locals can join from \$100

See hepburnwind.com.au/join, email info@hepburnwind.com.au, call 5348 6760
